Please let me know if I can be of particular assistance in any way. John Senn was one of the emergency reps for OW comms but he is now with OECA.

Subject: EOC Water Desk Activated

OW Incident Support Team,

The Headquarters Emergency Operations Center (EOC) Water Desk has been activated in response to the Gold King Mine (Colorado) release response activities.

The EOC Water Desk may require staffing support from the IST. An email has been sent to notify OW Management about the activation of the EOC Water Desk and the potential need for support from the IST.

Please note that this email does *not* indicate that your assistance is needed at this time. As the scope and nature of the incident evolve, the EOC Water Desk will contact you about information needs.

We appreciate your support in helping OW respond to the incident.
